Melius One
CONSULTING

FREE INTRO SESSION · 30 MINUTES

Build income from your investments, one clear step at a time.

Obi Oji, founder · meliusoneconsulting.com

TODAY’S 30 MINUTES

What we’ll cover together

3

minutes

Welcome

Who I am and how this session works.

12

minutes

Your story

Where you are today and what you want money to do for you.

10

minutes

How it works

The four stages, and why tax matters more than you think.

5

minutes

Your next step

One clear action, whether or not we work together.

ABOUT YOUR COACH

Obi Oji, founder

I came to Canada to build a better life for my family, and learned the hard way that a salary alone rarely gets you there. Today my family lives on income from our own investments.

24	**6**	**1:1**
Paydays a year from our investments	A family of six living on what our money earns	Every session, just us

THE PHILOSOPHY

Order before ambition.

Interest compounds against you as faithfully as returns compound for you. So we start with the foundations, and invest only when they hold.

Melius is Latin for “better.” Not rich overnight. Better every year.

YOUR STORY

Six questions to start

1. What comes in each month, and from where?
2. What does your household need to live on?
3. What debts do you carry, and at what rates?
4. What savings and accounts do you have today?
5. What would you like your money to do in five years?
6. What about money keeps you up at night?

HOW IT WORKS

Four stages, always in this order

STAGE 1

Foundations

Know your monthly number. Clear high-interest debt. Build a cushion.

STAGE 2

Accounts

TFSA, RRSP, FHSA and RESP: what goes where, and why it changes your tax.

STAGE 3

Income

Income ETFs that pay monthly, and how return of capital works.

STAGE 4

Growth

Index funds for the long run, and options only when you’re ready.

WHY TAX MATTERS

$100,000 a year, two ways

Most income-fund payouts are return of capital. It isn’t taxed when you receive it, so far more stays with you this year.

Ontario, 2026	Salary	Fund payouts
Received	$100,000	$100,000
Taxable this year	$100,000	about $10,000
Income tax	about $20,500	about $0
CPP and EI	about $5,800	$0
You keep this year	about $74,000	about $100,000

Simplified example, assuming 90% return of capital. Tax is deferred, not cancelled: return of capital lowers your cost base. General education, not tax advice.

WORKING TOGETHER

Three steps, no pressure

STEP 1

Free intro session

Today, 30 minutes. Your story, the plan, and whether coaching fits.

Free

STEP 2

One-on-one coaching

Six private sessions through the curriculum, with your own accounts and numbers.

$594 · or 2 payments of $297

STEP 3

Monthly check-ins

Optional, after your six sessions. A 30-minute review each month: what paid, what changed, what to watch.

$20 a month

YOUR NEXT STEP

One action before we speak again

Write down every debt you carry, its balance and its interest rate. That one list is where every good plan begins.
